

Retro-fit catch basin insert

StormBasin

storm water filtration device

Specifically designed to assist storm water managers in meeting NPDES II requirements:

- Designed for municipal catch basins
- Can function as stand alone BMP
- Protects structural BMP's
- Can be used to target specific pollutants

Fully featured and highly effective catch basin insert is designed to filter the full range of pollutants from storm water runoff, utilizing the leading filter technologies.

The StormBasin is available in over 400 sizes and comes standard with a patented adjustable aluminum flange.

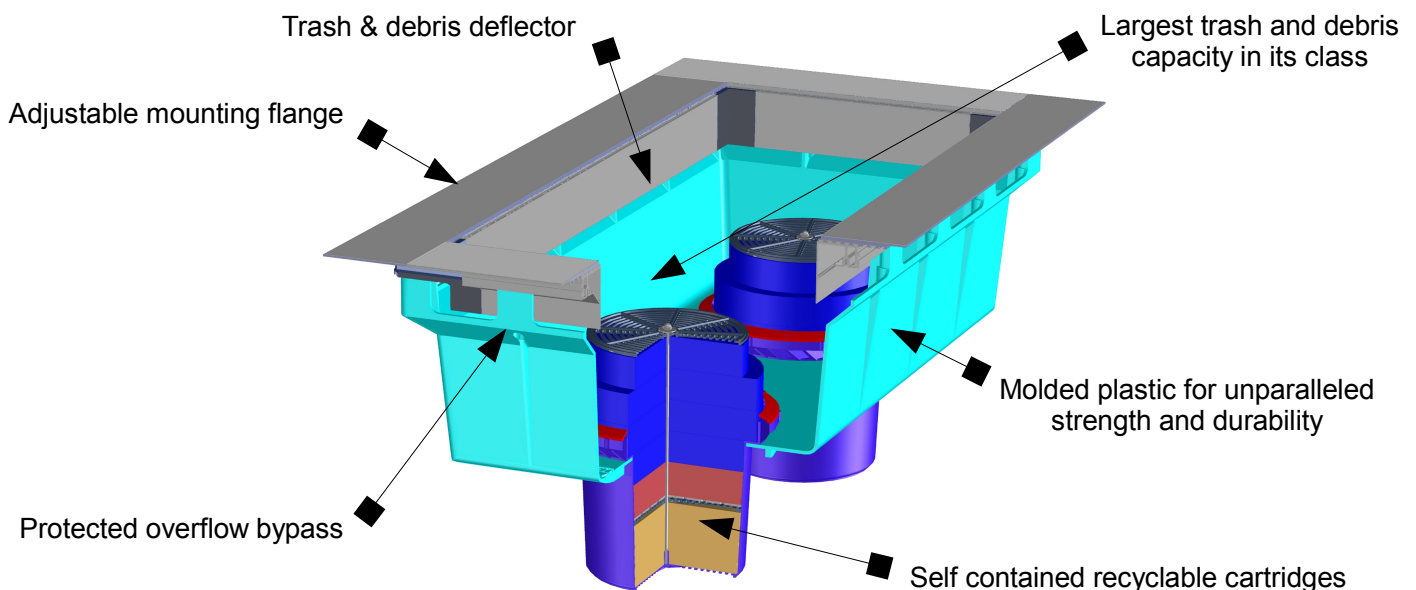

The StormBasin is supplied with our standard storm water cartridge. You can select from the complete range of filter cartridges if there are high concentrations of specific pollutants.

The StormBasin standard storm water cartridge targets the following pollutants:

- Bacteria
- Sediment TSS
- Trash & Debris
- Hydrocarbons
- Herbicides
- Pesticides
- Oils and Grease
- Heavy Metals
- Phosphorous & Nitrogen
